

40 Basic Math / Number System Problems

1. Count digits of a number.
2. Sum of digits of a number.
3. Reverse a number.
4. Check if a number is a palindrome.
5. Check Armstrong number.
6. Check strong number.
7. Check neon number.
8. Check automorphic number.
9. Check harshad number.
10. Check perfect number.
11. Check pronic number.
12. Check spy number.
13. Check duck number.
14. Check if number is even or odd.
15. Check prime number.
16. Check composite number.
17. Find factorial of a number.
18. Count trailing zeros in factorial.
19. Count primes in a range.
20. Print all primes in a range.
21. Check abundant number.
22. Check deficient number.
23. Check friendly pair.
24. Check magic number.
25. Check happy number.
26. Check sunny number.
27. Check Kaprekar number.
28. Check perfect square.
29. Check perfect cube.
30. Check leap year.
31. Find GCD (HCF).
32. Find LCM.
33. Print Fibonacci series.

34. Find nth Fibonacci number.
35. Find power of a number.
36. Count set bits in a number.
37. Convert decimal to binary.
38. Convert binary to decimal.
39. Print factors of a number.
40. Count factors of a number.
